

Paperwork...compliance...regulations...

Make Your Voice Heard in Washington!

The Financial Services Institute (FSI) is helping to change today's increasingly burdensome regulatory climate. FSI was created as the advocacy voice of independent broker/dealers and the financial advisors they serve.

FSI is now offering individual memberships, available to our advisors at a special rate because Mutual Service Corporation is a member of the Institute. For an investment of just \$99 (discounted from \$125), you can join FSI and make your voice heard.

Simply click on <http://www.financialservices.org> to find out more, and to join.

Membership will provide you with a strong, clear voice in Congress and with regulatory authorities. FSI is your partner in advocacy!
